

REMARKS

The present Amendment is intended to amend some paragraphs of the specification. No new matter has been added.

5 The following paragraphs of the specification have been amended:

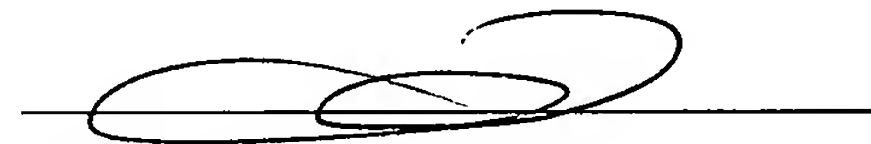

the second paragraph on page 3 of the specification has been amended to reflect publication of US patent application Ser. No. 10/152,289 as Pub. No. US 2004/0208418 and to correct a minor editorial matter; and

10 the seventh paragraph on page 11 of the specification has been amended to reflect issuance of US patent application Ser. No. 09/624,983 as US Patent No. 6,763,191 and to correct a minor editorial matter.

Favorable consideration and allowance of the application are hereby respectfully requested.

Respectfully submitted,

15

Doron HANDELMAN
